

Appendix 9: Draft Legal Scheme

This is the draft legal scheme for the Environmental Regulation (Scotland) Charging Scheme 2018. It is provided only for the purposes of the consultation so that you can see how the Scheme may be drafted and allow you to make any comments on the Scheme. Whilst we have checked the text and figures there will be some errors reflecting the draft status, if you do spot any please let us know.

In addition the monetary figures quoted are subject to change since:

- 1) the environment component charges will be updated once the 2016 data has been checked and fully validated for use (currently 2013, 2014, 2015 data is being used to give an indication of the score and hence charge),
- 2) RPI has not been applied – normally increases up to RPI will be applied based on the RPI figure taken at the 30th September the previous year. See para 3 of the scheme.
- 3) we will review the consultation responses and make suitable adjustments where justified,
- 4) correct errors identified by operators and staff during the consultation process.

We will update the guidance and Environmental Assessment Scheme (EAS) that sits along with this Scheme. Appendices 2-6 include some of the changes.

THE ENVIRONMENTAL REGULATION (SCOTLAND) CHARGING SCHEME 2018

The Scottish Environment Protection Agency in exercise of its powers under section 41 of the Environment Act 1995 and regulations 11 and 18(4)(b) of, and Schedule 5 to, the Water Environment (Controlled Activities) (Scotland) Regulations 2011, and with the approval of the Scottish Ministers, makes the following Charging Scheme, and in exercise of its powers under section 43 of the Environment Act 1995, fixes charges for certain services provided in the course of carrying out its functions.

PART 1

GENERAL

Commencement, extent and citation

1. This charging scheme shall -

(a) be referred to as the Environmental Regulation (Scotland) Charging Scheme 2018 ("this Scheme");

(b) extend only to Scotland;

(c) come into force on 1 April 2018; and

(d) remain in force until revoked.

Interpretation: general

2(1) In this Scheme –

"the 1989 Act" means the Control of Pollution (Amendment) Act 1989;

"the 1990 Act" means the Environmental Protection Act 1990;

"the 1993 Act" means the Radioactive Substances Act 1993;

"the 2014 Act" means the Regulatory Reform (Scotland) Act 2014;

"the CA Regulations" means the Water Environment (Controlled Activities) (Scotland) Regulations 2011;

"the PPC Regulations" means the Pollution Prevention and Control (Scotland) Regulations 2012;

"the WML Regulations" means Waste Management Licensing (Scotland) Regulations 2011;

"abstraction" and "impounding works" have the meanings given in the Water Environment and Water Services (Scotland) Act 2003;

"activity" means an activity which falls within an activity type and which is required to be carried on under an authorisation;

“activity type” means a type of activity falling within a description in a single row of column 4 of the table in the Schedule;

“annual charge” means a charge described in paragraph 10;

“application” means an application for an authorisation or to vary, modify, transfer, surrender, renew, cancel or revoke, an authorisation or to partially transfer or surrender an authorisation;

“application charge” means a charge described in paragraph 8;

“authorisation” means any of the following -

- (a) a permit under the PPC Regulations,
- (b) an authorisation or registration under the 1993 Act,
- (c) a registration under the WML Regulations,
- (d) a registration under the 1989 Act,
- (e) a registration or licence under the CA Regulations,
- (f) a licence under the 1990 Act,
- (g) an authorisation under Regulations made under the 2014 Act;

“financial year” means the 12 months ending on 31 March;

“imposed application” means an application falling within regulation 10 of the CA Regulations or an equivalent provision under the 2014 Act;

“materials recovery facility” has the meaning given in the WML Regulations or in Regulations made under the 2014 Act;

“relevant time and materials costs” means those costs and expenses incurred by SEPA in the determination of an application or the annual regulation of a permit, based on an hourly rate of £89, as notified from time to time by SEPA to the authorisation holder;

“SEPA” means the Scottish Environment Protection Agency;

“transitional water” means water (other than groundwater) in the vicinity of river mouths which is partly saline in character as a result of its proximity to coastal water but which is substantially influenced by freshwater flows.

(2) The Schedule to this Scheme (activity application charges and activity components) has effect.

Annual increases

3. Charges under this Scheme shall increase annually on 1 April in each year after the year the Scheme is made, in line with any increase in the Retail Prices Index published by the Office for National Statistics as at 30 September in the immediately preceding year.

Liability to pay charges

4. The persons set out below shall be liable to pay the charges under this Scheme –

(a) in respect of an application charge, the person–

- (i) applying to hold an authorisation,
- (ii) holding the authorisation to which the application relates,
- (iii) applying for the transfer of an authorisation, or
- (iv) on whom notice is given by SEPA under regulation 10(3) of the CA Regulations, and

(b) in respect of an annual charge, the holder of the authorisation in respect of which the charge is payable, or in the case of a licence under the CA Regulations, the responsible person within the meaning of those Regulations.

Time of payment

5. Charges payable under this Scheme shall be due and payable in full at the following times on or after the 1 April 2018 -

(a) subject to sub-paragraph (b), an application charge is payable on the making of an application to SEPA;

(b) the following application charges are payable on demand –

- (i) charges for application amendments;
- (ii) charges for advertisements;
- (iii) charges for imposed applications;
- (iv) charges where the application charge is the relevant time and materials costs;

(c) subject to sub-paragraph (d), an annual charge is payable annually on 1 April;

(d) the following annual charges are payable on demand –

- (i) a charge arising in the first year in which an authorisation is granted or in which the charge becomes payable;
- (ii) any case where the annual charge is the relevant time and materials costs;
- (iii) any charges arising after 1 April in any year, under paragraph 11 of this Scheme;

(e) all other charges are payable on demand.

Revocation

6. The Environmental Regulation (Scotland) Charging Scheme 2016 which came into effect on 1 April 2016 is revoked in so far as it relates to any period on or after 1 April 2018

PART 2

CHARGES FOR APPLICATIONS

Interpretation of this Part

7. In this Part –

“administrative application” means an application which SEPA considers to be of a purely administrative nature;

“activity application charge” means the charge listed in column 5 of the Table in the Schedule in relation to the corresponding activity type set out in that Table;

“application amendment” means a request to amend an application in such a way that SEPA considers further public consultation is required;

“assessed transfer application” means an application for the transfer of an authorisation which is subject to assessment;

“BATC review variation” means a variation imposed by SEPA as a result of a review required under regulation 44(1)(d) of the PPC Regulations or an equivalent provision in Regulations made under the 2014 Act;

“energy efficiency assessment application” means an application which includes a cost benefit analysis as required under Schedule 1A to the PPC Regulations;

“R1 status application” means an application made to SEPA to grant R1 recovery status in relation to an incineration plant;

“standard variation or surrender application” means an application for the variation, modification, surrender, cancellation or revocation of an authorisation which does not fall within any other definition in this paragraph;

“substantial variation or surrender application” means an application for the variation, modification, surrender, cancellation or revocation of an authorisation, which SEPA considers likely to involve significant assessment.

Applications

8. (1) An application charge is payable for the types of application described in column 1 of Table 1.

(2) Subject to sub-paragraph (3), the application charge for each type of application shall be the corresponding charge set out in column 2 of Table 1.

(3) Where –

(a) more than one activity is the subject of an application for an authorisation or renewal of an authorisation, or for a substantial variation or surrender application, the applicable charge described in column 2 of Table 1 shall be reduced by 10% for all those activities which are

reasonably associated with each other, except the one for which the largest charge is payable;

(b) SEPA incurs or will incur costs in relation to the advertisement of that application, an additional charge of £510 shall apply.

Table 1

Type of application	Charge
Application for an authorisation or to renew an authorisation.	The total of the activity application charges applicable to the activities which are the subject of the application.
Substantial variation or surrender application.	70% of the total of the activity application charges applicable to the activities which are the subject of the application.
Standard variation or surrender application; and Application amendment.	30% of the total of the activity application charges applicable to the activities which are the subject of the application.
Administrative application.	Zero
Assessed transfer application.	£1,224
Imposed application.	The charge payable for an application for an authorisation plus an additional 25% of that charge.
BATC review variation.	% of the total of the activity application charges applicable to the activities which are the subject of the review. NOTE which % and when it applies is part of the consultation.
R1 status application.	£2040. NOTE this is part of the consultation.

PART 3

ANNUAL CHARGES

Interpretation of this Part

9. In this Part -

“activity component” means the amount set out in column 6 of the Table in the Schedule in relation to the corresponding activity type set out in that Table;

“authorised activities” means all those activities authorised by an authorisation;

“Compliance Assessment Scheme” means the scheme with that title published by SEPA on xxx, version yyy;

“compliance factor” means the factor in relation to each authorisation –

(a) calculated in accordance with the Compliance Assessment Scheme; and

(b) published in the Table of Compliance Factors and Scores, except in the following cases where the Factor and score will be notified to the operator by SEPA –

- (i) where an authorisation is granted after the publication of the Scheme;
- (ii) where a score has been omitted from the publication in the Scheme, in error;
- (iii) where there is an error in the calculation of a score published in the Scheme;

but the compliance factor shall be 1 (one) until 1st April 2019;

“environmental category” means one of the categories for which there is a financial factor;

“environmental component” means, in relation to each environmental category attributable to the authorised activities, the environmental score multiplied by the financial factor, but there is no environmental component where –

- (a) there is a “no” in column 7 of the Table in the Schedule in relation to every activity type which the authorised activities fall within,
- (b) the environmental score is less than 1,
- (c) in the case of the abstraction of water, the abstraction rate is less than 1,500 cubic metres per day, or
- (d) in the case of the impounding of water, the volume impounded is less than 25,000 cubic metres;

“environmental score” means the score in relation to each environmental category attributable to the authorised activities –

- (a) calculated in accordance with the Environmental Assessment Scheme; and
- (b) published in the Table of Environmental Scores, except in the following cases where the score will be notified to the operator by SEPA –
 - (i) where an authorisation is granted after the publication of the Scheme;
 - (ii) where a variation is granted which would affect the score by more than 50%;
 - (iii) where a score has been omitted from publication in the Scheme, in error;
 - (iv) where there is an error in the calculation of a score published in the Scheme;

“Environmental Assessment Scheme” means the scheme with that title made by SEPA on 30 March 2016, version 1; [NOTE: the Environmental Assessment Scheme will be revised and reissued with a suitable reference included here when a new scheme is issued]

“financial factor” means –

- (a) for emissions to air, £284.72,

- (b) for sewage discharges made by a public entity to water, £1402.44,
- (c) for all other discharges to water, £273.91,
- (d) for the management of waste, £4600.49,
- (e) for the abstraction of water, £13.04,
- (f) for the impounding of water, £1.07;

“Table of Environmental Scores” means the table of environmental scores made by SEPA on 30 March 2016, version 1. [NOTE: this Environmental Scores will be revised and reissued with a suitable reference included here when a new scheme is issued]

“temporary cessation” means where an activity temporarily stops operating for a minimum of 12 months for irrigation or marine fish farms activities and 6 months for all other activities and a maximum of 2 years before review.

General

10. (1) Subject to sub-paragraph (2) an annual charge shall be payable for the subsistence of an authorisation, for any full or part financial year during which that authorisation is in force;

(2) No annual charge is payable where –

(a) the activity component is the relevant time and materials costs;

(b) neither construction work in relation to, nor the operation of, any of the authorised activities has commenced, provided that a charge of 100% of the annual charge shall be payable from the fifth year after the permit was granted in any event unless it is considered to be under temporary cessation in which case the full charge will be reduced by 80% .

(3) Subject to paragraphs 11 and 12, and sub-paragraph (4), the annual charge shall be the total of the activity components and the total of the environmental components, applicable to the authorised activities, multiplied by the compliance factor applicable to the authorisation.

(4) Where an activity is considered by SEPA to be a 'micro -activity' or PPC A Low Impact the annual charges will be as follows:

Micro Abstraction activity £175
Micro Discharge activity £175
Micro PPC B activity £175
Micro WML activity £500
A PPC A activity considered to be Low Impact £700

(5) Where-

(a) more than one activity is the subject of an authorisation, the activity component for each activity other than that to which the largest charge applies, shall be reduced by –

(i) 75%, in the case of each activity which is of the same activity type, and

(ii) 10%, in the case of every other activity;

(b) the activity component is the relevant time and materials costs, the annual charge shall be those costs and sub-paragraph (2) does not apply;

(c) SEPA undertakes project work relating to the annual regulation of a particular operator, relevant time and materials costs in relation to that project work shall be added to the annual charges payable by that operator.

In-year adjustments

11. The following in-year adjustments shall be made, –

(a) in the case of an authorisation which, after the date on which the annual charge is payable in any year, is revoked or surrendered, or is varied in such a way that either adds or removes an activity or so that SEPA notifies a revised environmental score, the charge shall be adjusted pro rata so that no charge, or the appropriate revised

charge, is payable from the date on which the revocation, surrender, or variation takes effect;

- (b) in a case where SEPA considers that the operation of an activity meets the criteria of temporary cessation the charge is reduced by 80% for the period of temporary cessation;
- (c) In a case where SEPA considers that an abstraction will take place only between 1st October and 31st March or where an abstraction will take 75% or more of requirements between 1st October and 31st March for filling a storage pond, the activity charge shall be reduced by 62%.
- (d) In a case where SEPA considers that an activity will not be subject to annual monitoring the activity component charge shall be reduced by 50%;
- (e) in a case where, by reason of a legislative amendment, or the exercise of powers by SEPA, after the date on which the annual charge is payable in any year, an authorised activity ceases to be required to be authorised or where the nature of the requirement to be authorised changes in a way which would affect the calculation of the annual charge, the annual charge shall be adjusted pro rata from the date of the relevant amendment so that no charge, or the appropriate revised charge, is payable from the date of the amendment.

Transitional arrangements.

12(1) Subject to sub-paragraph (2), the annual charge shall be reduced or increased progressively by increments in each of the first three financial years in which this Scheme is in force, in the following manner –

(a) each increment shall be one fifth of the difference between the annual charge and the 2015/16 annual charge, and

(b) in each new financial year, the increment shall be added to the charge payable in relation to the previous year, including any adjustment made under paragraph 3 of this Scheme.

(2) Sub-paragraph (1) does not apply to -

(a) any activity which is first authorised on or after 1/4/2016;

(b) any activity for which the annual charge is relevant time and materials costs;

(c) any charges which reflect the costs of regulating a materials recovery facility under the materials recovery code or the costs of additional SEPA monitoring of a marine cage fish farm.

(d) Any activity that is getting a temporary cessation reduction.

(3) In this paragraph –

“marine cage fish farm” means the keeping of live fish (whether for profit or not) in floating net structures in coastal or transitional water with a view to their sale, or transfer to other waters;

“materials recovery code” means the code defined in regulation 13B of the WML Regulations.

IN WITNESS WHERE OF these presents typewritten on this and the seven preceding pages are executed for and on behalf of SEPA by _____ (**subscribing their usual signature** _____), **ROLE**, at Stirling on the _____, _____ in the presence of _____, **ROLE**.

SCHEDULE

Activity application charges and activity components

Interpretation

1(1) In this Schedule –

“agricultural use ” means use for agriculture within the meaning of section 86 of the Agriculture (Scotland) Act 1948;

“complex licence” has the meaning given in “The Water Environment (Controlled Activities)(Scotland) Regulations 2011(as amended) – A Practical Guide”, version 7.2, published by SEPA in March 2015;

“directly associated activity” has the meaning given in the PPC Regulations;

“engineering” means works described in regulation 3(1)(d) of the CA Regulations;

“environmental service” means an activity which SEPA considers is designed solely for the benefit of the environment and is not undertaken for commercial purposes or in order to comply with a legal obligation;

“IAEA” means the International Atomic Energy Agency;

“impoundment” means impounding works;

“installation”, “Part A installation” and “Part B installation”, have the meanings given in the PPC Regulations;

“large and complex activity” means one of the following activities or an activity of equivalent scale and complexity -

- (a) construction of a large cross-catchment hydropower scheme,
- (b) a large windfarm,
- (c) a large infrastructure scheme (such as roads, electricity),
- (d) construction of a waste incinerator, or
- (e) any other project which involves major re-engineering of water bodies;

“low impact installation” means a Part A installation which SEPA considers cannot result in emissions or there is no likelihood that it will result in emissions except in a quantity which is so trivial that it is incapable of causing pollution or its capacity to cause pollution is insignificant;

“micro-activity” means an activity carried out on a micro scale and which SEPA considers is of low environmental hazard;

“MWth” means the net rated thermal input of an appliance which is the rate at which fuel can be burned at the maximum continuous rating of an appliance multiplied by the net calorific value of the fuel and then expressed in MW;

“PPC A ” and “PPC B” mean a PPC Part A or Part B activity within the meaning of the PPC Regulations and any following references to numbers mean the relevant activity references in Schedule 1 of the PPC Regulations;

“private”, in relation to an activity type, means an activity which is not run by or on behalf of a body of state;

“public”, in relation to an activity type, means an activity run by a body of the state (for example a publically owned water utility such as Scottish Water) or on behalf of a body of the state (for example a “private public initiative”);

“relevant works” has the meaning given in the WML Regulations;

“RSA activity” means an activity authorised or registered or required to be authorised or registered under the 1993 Act;

“SFIR installation” means an installation subject to or to be subject to, the “Standard Farming Installation Rules” published by SEPA from time to time;

“simple licence” has the meaning given in “The Water Environment (Controlled Activities)(Scotland) Regulations 2011(as amended) – A Practical Guide”, version 7.2, published by SEPA in March 2015;

“SSLPH” means sources in categories 1 to 4 described in guidance given by the IAEA in its published documents “Dangerous Quantities of Radioactive Material (D-values) (EPR-D-Values 2006)” and “IAEA RS-G-1.9 Categorization of Radioactive Sources”;

“waste exempt” means an exempt activity within the meaning of the WML Regulations and references to paragraph numbers associated with exempt activities are to paragraph numbers in Schedule 1 to those Regulations;

“WMA” means any operation involving the management of waste within the meaning of the 1990 Act.

(2) (a) The table in this Schedule contains the activity application charges and activity components referred to in this Scheme;

(b) Where an activity appears to fall within the activity type “large and complex activity” and another activity type, that activity must be regarded as falling only within the activity type “large and complex activity”;

(c) Where an activity appears to fall within more than one activity type, that activity must be regarded as falling only within description which fits it most aptly.
