

1 Non-Technical Summary of Determination

Petroineos have requested a change to their operating Permit as follows:

Extension to Sulphur Derogation Timeline of Nine Months

The delayed installation of a Sulphur scrubber on the fuel gas system will result in the emission of an estimated maximum additional 130 Tonnes of Sulphur.

SEPA has assessed the request and is minded to approve it due to the technical reasons presented and the context of a much-reduced site-wide Sulphur emission since the original derogation was determined.
