

Summary of proposals and next steps

Martin Marsden

Next steps

New framework will come into effect on 31 May.

Will learn from our experience – will continue to evolve.

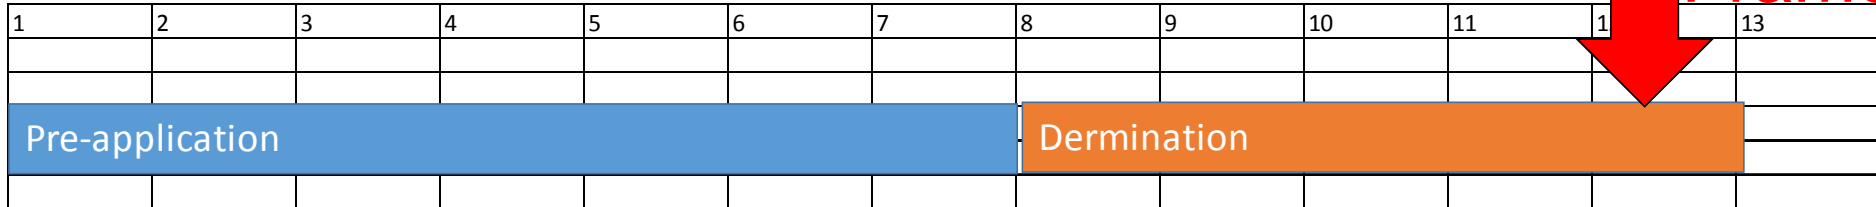

Will make slides and flow charts available by end of week.

Guidance will be built around the flow charts

Transitional arrangements – are necessary to make the change practical.

Managing change: applications

Time taken to develop proposals

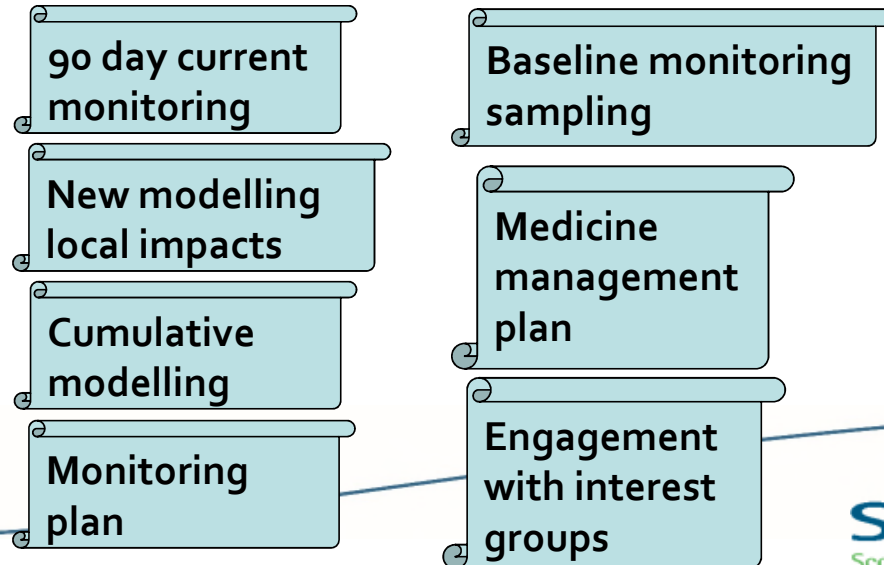

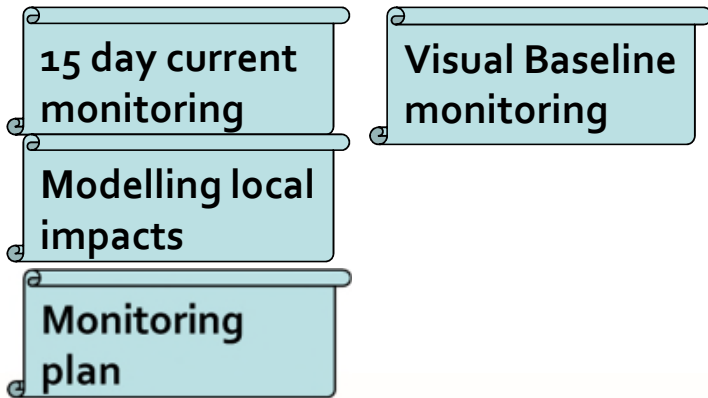

New Framework

Old

New

Text corrected after workshop

Managing change: existing farms

Vary licences (introducing monitoring requirements) by 31 March 2020

At the end of first cycle carry out monitoring and compare area of impact with permitted area.

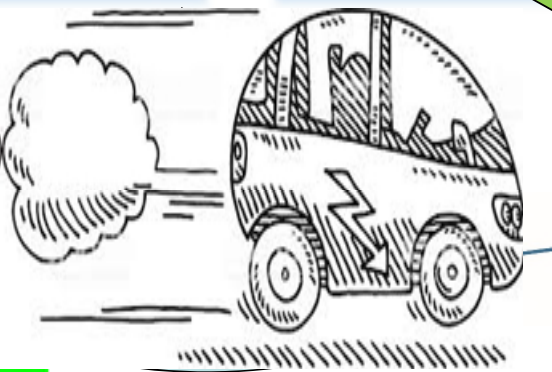

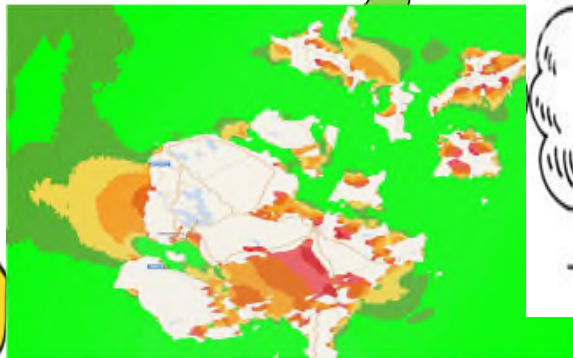

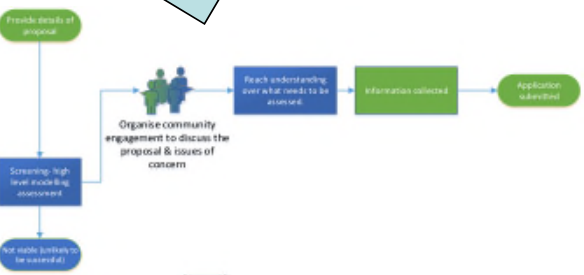

If monitoring identifies problems have until the end of the second cycle to take remedial action.
