

INTRODUCTION

About this Consultation

Welcome to this public event. The purpose of this event is to present the River Park Routes development in Levenmouth, Fife to **allow the local community and other stakeholders to comment on the latest proposals.**

The River Park Routes project is part of the Levenmouth Connectivity Project and is being delivered by Green Action Trust, and Iglu Studio, as part of the Leven Programme. The proposed River Park Routes are **off-road active travel links** within the River Leven valley, designed for **shared use by walkers, wheelers and cyclists** and comprising approximately **11km of 3-4m wide paths.**

The project proposals at the public events which will be held on **Friday 21st April and Friday 19th May 2023 between 1-7pm** at The Centre, 1 Broomieknowe, Leven, KY8 4Q can also be viewed online at the link below.

Site Location

The proposed River Park Routes active travel network is located within the existing River Leven valley and adjacent green spaces in Levenmouth from Cameron Bridge to Leven.

The River Park Routes project area is approximately 130 hectares in size and includes a variety of diverse habitats including woodland, scrubland, grassland and wetlands within which the active travel network will weave.

APPROACH

Whilst there have been a range of engagement events over the last three years we are holding **two further public drop-in events on Friday 21st April and Friday 19th May 2023** in advance of an application for Planning Permission in Principle (PPiP). The first event will allow the public to provide feedback on working proposals with the second event demonstrating how this community input has been addressed and integrated into the designs.

This consultation allows members of the public and other stakeholders an opportunity to comment on the emerging concepts and ideas which will inform the development of a planning application for the proposed River Park Routes active travel network.

A Proposal of Application Notice has been submitted and registered for the site under the reference **23/00357/PAN**, and the consultation arrangements have been approved by Fife Council. Please note that, at this stage, comments are being provided to the applicant (Green Action Trust) and not Fife Council.

Questionnaires will be provided at the drop-in events and online to comment on the proposals at <https://consultation.sepa.org.uk/the-leven/river-park-consultation/> or alternatively use the QR code provided below. The questionnaire will be live for responses from 21st April until 26th May 2023.

We welcome members of the community and interested parties to this public exhibition, to share your thoughts and ideas for the proposals and we appreciate your valued feedback.
